

## Newspaper

You are going to make a kind of newspaper in which you write articles of different sorts. You can fill the pages with what you find in an ordinary newspaper. There are some things you have to do, though. You have to be the author of all the articles, which means that you can't copy from the Internet.

You decide what you are going to print in your paper but there is one thing you have to include: an inquiry. That means that you are going to ask people in school what they think about Kalix, if they think something could be better and whether they like living in Kalix or not. Everything you write has to be in English.

Use your computer and create your newspaper. You can include pictures and whatever you feel like as long as it's legal.

You can start immediately if you like. You can also work with this after school, at home.

Good luck!
